Water Quality Software

# Water Quality Compliance is Everyone's Concern

Collecting accurate water quality data can be an extraordinary challenge — facilities that generate and discharge wastewater face a long list of monitoring and reporting requirements.

Compliance demands precise monitoring and analysis at every point of discharge throughout each of your facilities, in addition to timely and accurate reporting at the local, state, and national level.

VelocityEHS Water Quality provides the stormwater/wastewater monitoring and reporting capabilities you need to ensure compliance with a wide range of water quality standards. Our cloud-based system helps you perform complex calculations in real-time to give you the most accurate, up-to-date discharge data available — helping you to manage your compliance with greater efficiency, visibility, and ease.
