VelocityEHS®

Contractor Safety & Permit to Work — Now Enhanced with **AI-Driven Automation**

Ensure contractor compliance

Reduce organizational risk

How do you ensure proper vetting of all visitors when issuing 10-60 (or more) permits daily? Without the appropriate cloud solution, crucial tasks are overlooked, heightening risk and noncompliance.

Contractors working on site leave your company vulnerable, especially if you're still using manual processes to check vendor qualifications, administer training and issue permits.

VelocityEHS Contractor Safety & Permit to Work with AI uses machine learning (ML) to automate contractor verification, enabling faster, more accurate compliance assessments while minimizing administrative effort. By streamlining the verification process, it empowers both EHS and non-EHS teams to enhance contractor safety, reduce risks, and drive operational efficiency across the organization.
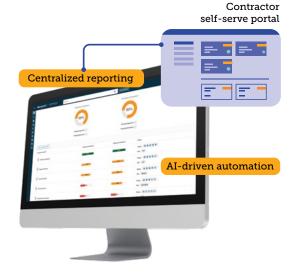

> "The VelocityEHS team was determined to ensure the best system be implemented, allowing maximum flexibility for future improvements when required. I can confidently endorse VelocityEHS and the work they have done."
>
> *Dan Donovan*
> *Technical Services Leader, DePuy*

See What VelocityEHS Can Do for You

Core Capabilities:

+ ML/AI driven reviews for:
  - Certificates of Insurance (COIs)
  - OSHA Logs
+ Permit to work
+ Contractor safety
+ Contractor self-serve portal
+ Qualification management
+ Visitor management
+ Induction & orientation
+ Dashboards & reports

Contractor self-serve portal

Centralized reporting

AI-driven automation

Save Time with AI-Driven Automation.
Reduce administrative burdens by automating compliance workflows with contractor verification that is 7x faster..

Automate Document Review.
AI process COIs, OSHA logs, and safety records with precision, reducing delays and human/manual errors.

Ensure Compliance at All Times.
Easily manage people, permits, and activities across your organization while simplifying dashboards and reports.
